

Muchas Manos & SDANG Workshop

Star Dance
By Margaret Bendig

Saturday & Sunday May 5-6, 2018
San Diego, CA

Star Dance is a study in the difference in the use of a single color using different threads, stitches, direction of stitches and the reflection of light to create "dancing stars". The original is stitched with Soie d'Alger silk and some specialty threads. The center star is a revolving set of patterns with metallic threads to add to the definition of the stitches. The background of the design is composed of many different star patterns using two values of blue silk with the addition white Sparkle Rays. This slice of the sky reminds me of and was inspired by the early morning sky along the central west coast of California as dawn is breaking and the stars are beginning to fade into the day. This design is offered as a 24 or 18 count canvas in silk or cotton floss. Approx. design size is 10" x10" on 18 count and 7.5 x7.5 "on congress ground. Ghost students are permitted.
