Explore three dimensional surface embroidery, silk ribbon flowers and more! Clever stumpwork techniques create lovely results from simple stitches. Stitches include straight stitch, buttonhole, satin stitch and French knots. Some thread weaving and the addition of tiny beads complete this delightful tiny garden scene. The Sunny Day Sampler contains all materials needed, including hand painted silk ribbon, cotton floss, beads, findings and cotton fabric. Completed design measures approximately 6x6 inches. Ghost students are permitted.

Registration Deadline is October 1, 2017
