

SDANG 2023 Programs Registrations

1. ANG 2023 Stitch of the Month Project - *Crescent Journey*. Scheduled for March, June, September 2023 and January 2024. An option available is to create a stitch reference binder by stitching small samples on canvas, attaching to a blank business card and inserting in a plastic holder for a 3-ring binder. The Chapter will provide members who want to use this option blank business cards and plastic holders to hold 80 samples. Please sign up if you would like to receive these items. We prefer to distribute at in-person meetings but will mail for a fee to cover postage.

I would like to receive these items at a Chapter meeting
I would like to receive these items via USPS for a \$5 fee

2. A new Chapter Project Book piece, *Heart Beat* is the February program. To comply with ANG requirements, this program will be limited to registrants. You don't need to work on it during the program but to receive the instructions you do need to register. This is a beautiful Or Nue project by Jennifer Rifenberg who will be joining us via Zoom to present the project. Upon registration you will be sent a PDF of the instructions via email or can be mailed a copy for a fee to cover postage.

I would like to register and have a PDF emailed to me

I would like to register and have it mailed via USPS for a \$5 fee

3. Another long-term project will be *Layers of Leaves* from Needlepoint Now. Presented in 6 issues in 2023, this can be completed as presented OR as another source for your stitch reference binder. By registering, you will be included in a dedicated SDANG Groups.IO group where we can share questions/tips/photos as we work through this piece. You must have an email and be registered on Groups.IO to participate.

NOTE: By registering, you agree that you will obtain your own copies of the magazine for the instructions and charts – none of these will be included in the group.

I would like to register for the Layers of Leaves long-term project. I understand that I must obtain my own copy of Needlepoint Now for the instructions and that all discussions will occur on the Groups.IO subgroup.
