These beautiful Crystal Snowflake ornaments capture the wintery season mood that we love to feel for the holidays.

The white sparkly threads with several different types of beads and crystals look equally lovely on both the red canvas and the blue canvas (both are 18ct. & both are included in the kit). The white threads will be a combination of Radiance 18 Metallic and Rainbow Gallery Sparkle! Braid.

The finished size of this intermediate level design is approximately a 4" round and include Crescent stitches, Star Stitch, Leaf Stitch Variation, and more.

There are enough threads & embellishments to stitch both the red and the blue versions.

As this is a Pilot class, ghost stitchers are not allowed.
